DISTRICT COOKING COMPETITION

Sunday 10th February 2019

District Scout HQ, Poplars

Team Information

Theme

Teams should follow the theme “Free From” as chosen by the Scouts at last year’s County event, an explanation of the theme on the menu is recommended. The menu should be ‘free from’ something, i.e. meat, dairy, wheat, gluten, nuts etc. Points may also be awarded for the locally sourced ingredients.

Menu Requirements

A three course meal is to be prepared for a patrol of 4 people [and a small taster portion for judging], with a maximum budget of £18, (points will be deducted for exceeding the budget). Any items including meat, fish, vegetables and fruit may be used so long as the budget is not exceeded. Extra points will be awarded for items prepared ‘from scratch’, (e.g. sauce from basic ingredients, not a jar).

- **There are NO set ingredients.**
- Drinks to be served during the meal do not need to be include in the budget.
- Small quantities of normal pantry items (supplied by the team) will be allowed in addition to costed ingredients (e.g. flour, herbs, spices, oil, vinegar, sugar and butter).

The meal is to be prepared using equipment which may be found in an average camp kitchen, i.e. with limited portable equipment, see the equipment list below, if in doubt ask the organiser. Basically, if it includes an electric plug, you can’t use it, otherwise you probably can! As always, common sense will prevail!

A menu and costing with receipts (with team name clearly written on) should be handed in at check-in. The method of cooking, table setting and the appearance of the meal will be judged according to the attached criteria. After final judging and tasting, the team will eat the meal.

Kit List:

Each team should only bring the following equipment:

- Gas cooker with two rings, grill and a gas bottle (in date gas pipe)
- No oven! No other heat sources.
- 1 set of billies (large, medium and small)
- 1x1 gallon dixie
- 2 mixing bowls
- 2 washing up bowls/buckets and tea towels
- Cutlery, crockery and glassware
- No electrical equipment to be used!
- 2 tables will be provided – teams should not bring extra tables (there is not enough space.)
- 1 frying pan or wok
- 1 water container
- Cooking utensils (peeler, knives, grater, whisk, etc).
- Table decorations, linen, cruet, etc.
- Chopping boards
- Common sense with regards to equipment applies, if you can get it in a patrol box and take it on camp
- **FIRST AID KIT**

Additional Guidance

The following terms will be used when describing the team's work within feedback and applies to a range of points that will have been awarded:

Description	Out of 5	Out of 10	Out of 15
Excellent	4-5	8-10	12-15
Good	3	5-7	8-11
Fair	1-2	2-4	3-7
Needs Improvement	0	0-1	0-3

- It would be helpful if teams could provide their menus, timings (a timed breakdown of their preparation time), recipes and costings in advance of the morning to allow the judges' time to consider them properly - it is very rushed during the morning itself. Costings should be calculated using the full sales price as special offers are not permanent and therefore do not give accurate costings for a meal. However, this does not mean that you can't take advantage of them when purchasing your food!
- Judges taster portions should be of similar proportions to the team member's main plates, and should be served alongside one team member's portion so that balance of plate and presentation can be marked.
- All team members should eat all components of their menu
- Scouts should be collected at 2:15pm

Uniform:

Scouts are expected to attend wearing full scouting uniform i.e. Scout activity trousers/ smart (school) trousers or similar, smart clean school shoes, scout shirt (tucked in), woggle and group scarf (ironed, correctly rolled and worn properly).

Calculating costings

This has very rarely been provided by teams in the past and therefore we are providing the instructions for how to calculate menu costings. Costings will need to be provided for each dish served.

1. Gather purchasing receipts and each recipe.
2. List the ingredients required for each recipe in a single column table (example of full table provided).
3. Add extra columns to the right - quantity of each ingredient required for recipe, cost of ingredients serving (approximate depending on how they might be measured), cost of amount of ingredients required for recipe.
4. Use your recipe to determine the quantity of each ingredient on your list and write it in the second column in the table.
5. Break down the cost of a product for each individual item and write it in the cost of individual ingredients column. You may need to research and estimate the purchase price of your store cupboard ingredients as you will not have the receipt.
6. Multiply the cost of an individual ingredient item by the amount required for the recipe and write this in the cost of amount of ingredients required for recipe column.
7. Add the recipe cost numbers together to find out the total recipe cost.
8. Divide the total recipe cost by the number of servings yielded to find out the serving cost.
